EAA Chapter 100 is a nonprofit association involved in the promotion of aviation through adult and youth education, hands-on training, building and maintenance of experimental aircraft, and through community awareness programs.

This publication by EAA Chapter 100, Inc is for the use, education and occasional enjoyment of its members and others. No claim is made for the accuracy or applicability of information herein. Editorial content is the opinion of the contributor not necessarily the position of either EAA Chapter 100 or the Experimental Aircraft Association.

Reader submissions and comments are strongly encouraged.

October Hangar Flying Event

The Dodge Center airport open house last weekend served as our October meeting. I apologize for not getting this newsletter out with that information last week.

November Hangar Flying Event

Our November event will be held on Friday, November 8th at the Dodge Center terminal building at 7:00 PM. The event will be hosted by Dick Fechter and we will be celebrating his 50 years of flying. Come and enjoy 50 year worth of flying stories – I'm sure some of them may even be true... (Just kidding Dick!)

Upcoming FAASTeam Safety Seminar

Dr. John Kunkaitis, an AME at Olmsted Medical Center will give a briefing on pilot physiological factors followed by an open Q&A session. A 5-year study of drugs found in pilot fatalities showed prescription medications were present in 20% of the pilots, and nonprescription drugs in 16% of the pilots.

Some examples of physiological factors include:

- Prescription and over-the-counter drugs (self medication)
- Hypoxia
- Nutrition
- Stress, worries, External pressures or, Fatigue
- Cold or Flu symptoms
- Sleep deprivation, Circadian rhythm
- Diet, Hydration
- G-loc or G-excess

This is something that concerns us all as pilots. Follow the link below to get registered.

When: Tuesday, October 22nd

Time: 7:00 PM

Where: Carpenters Local 1382 Regional Training Center
6692 10th Ave SE
Rochester, MN 55902

Dodge Center Terminal Building

Thank you to all the volunteers that helped with the remodeling of the terminal building at KTOB. The building looks outstanding. A special thanks to Gordy and Stan for all that you did to organize the work parties and take care of things during the weeks. It will continue to serve as a welcoming place for pilots as well as a perfect Chapter 100 meeting place.

Good Links

Navy & Marine Corps pilots making their first carrier landings. What a trip this would be.

<http://player.vimeo.com/video/31549908?autoplay=1>

This next one is a great visual display of the phenomenal aircraft manufacturing that went on during WWII.

I think we know where those leftover screws came from...

Aviation is proof, that given the will, we have the capacity to achieve the impossible.

-Captain Edward "Eddie" Rickenbacker.
